**STRONG, BUT NOT OVERPOWERING SCENTS
HANDPOURED IN AN UPCYCLED BEER BOTTLE**

"I BELIEVE IN BALANCED CANDLES.
THAT MEANS THE SCENTS AND CONTAINERS
ARE A COMPLIMENT TO YOUR HOME,
NOT THE MAIN ATTRACTION."
- ADAM DICKENS

Candles Inspired by Coffee, Beer & Saturday Mornings

A CANDLE YOU CAN FEEL GOOD ABOUT

3 SIMPLE INGREDIENTS

100% Soy Wax

Soy Wax is 100% renewable, eco-friendly, and sustainable. Soy wax was probably a soy bean less than a year ago. Unlike paraffin wax which is a petroleum product.

Strong, But Not Overpowering Scent

I believe in balanced candles. That means the scents & containers are a compliment to your home, not the main attraction.

Natural Cotton Wick

Wicks are made from all natural cotton that has been tested to specifically pair with its container. No zinc, no lead, just the good stuff you can feel good about.

ECO-FRIENDLY AND SUSTAINABLE

Upcycled Bottles

Reusing beer bottles uses less resources than producing a new candle container. All bottle necks (the part cut off during production) are recycled.

Bottles are cut and melted down to a safe smooth edge, then can be cleaned and reused.

Sustainable Packaging

Orders are minimally packed with plant based tape, reused packing paper, biodegradable packing peanuts, reused six pack holders and reused beer boxes.

HAND MADE BY MY FAMILY FOR YOURS

Give Back

As a small business owner I am passionate about giving back to the community I live and work in. Each quarter I set aside a portion of proceeds to support a local charity.

Hand Made

I started this company to provide balance for my family. I work hard making candles & then focus on relaxing with my wife & kids. I also have the flexibility to care for sick kids, chauffeur to swim lessons & cook my family dinner (most) every night.

Locally Grown

American Grown 100% Soy Wax. Yup, American farmers grow the soybeans (primarily in Illinois, Iowa, and Indiana) that are used to make candle wax. From farm to flame soy wax supports the American economy.
